(54) PORTABLE TERMINAL

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a portable terminal which can efficiently display a plurality of collapsible screens.

SOLUTION: The portable terminal of the present invention is provided with a first case on which operation keys are arranged, a second case on which a first display is arranged, a third case on which a second display is arranged, a first hinge portion which collapsibly combines the first and the second cases so that the operation keys may face the first display, and a second hinge portion which collapsibly combines the second and the third cases so that the first display may not face the second display, with a rotation axis almost orthogonal to a rotation axis of the first hinge portion provided. A camera is arranged on the second display surface of the third case, and a photographed image of the camera is displayed on the second display.
